Safety/Warning Indicators & Messages

Throughout this User Manual you will see important messages regarding your safety or the protection of your vehicle. These messages are designated by the words WARNING, CAUTION, or NOTE.

WARNING

A  **WARNING** indicates a hazardous situation which, if not avoided, will result in death or serious injury. Damage to the vehicle and/or product may also occur.

CAUTION

A  **CAUTION** indicates a hazardous situation which, if not avoided, could result in minor or moderate injury. Damage to the vehicle and/or product may also occur.

NOTE

A **NOTE** is a step or reminder that is important to follow and remember when installing or using the product. Failure to observe these notes could result in damage to the product and/or vehicle.

The product you have purchased is a high-performance product. As such, it does present some risks of which you should be fully aware. Do not use this product until you have carefully read the following safety information and the Owner Agreement.

 **WARNING:** *Prior to use, read the User Manual. Misuse of the device could result in traffic accidents, death or serious injury, and/or damage to your vehicle. HOLLEY IS NOT RESPONSIBLE FOR AND SHALL HAVE NO LIABILITY TO YOU FOR ANY CLAIMS ARISING OUT OF OR RELATING TO ANY MISAPPLICATION OF THE DEVICE, CUSTOM TUNES, IMPROPER USE OF CALIBRATIONS, MALFUNCTION OR LACK OF LEGAL COMPLIANCE FOR CUSTOM PROGRAMS CREATED BY THIRD PARTIES.*

Safety Guidelines & CARB/EPA Compliance

Before using device, read and understand the user manual, including these additional safety instructions. Failure to do so could result in DEATH or SERIOUS INJURY.

- Do not exceed legal speed limits on public roadways. Violating traffic laws is dangerous and could result in injury or vehicle damage or both.
- Use any enhanced speed capabilities of this product only in closed circuit, legally sanctioned racing environments expressly for this purpose. Violating traffic laws is dangerous and could result in injury or vehicle damage or both.
- Do not operate the device while driving. Distracted driving could result in traffic accidents, death or serious injury, and/or damage to your vehicle.
- Always perform all adjustments or changes while stopped. Changing a setting while driving can interfere with your attention to roadway conditions and could result in injury or vehicle damage or both.
- Do not stack products. “Stacking” performance-enhancing devices or other improper installation can cause power train failure on the road. Other products may have features incompatible with your device. Follow all installation and operating instructions.
- Some modifications may affect other parts of your vehicle. For example, if you remove/adjust the speed limiter in your vehicle, be sure your tires and other components are rated for the increased speeds they will have to withstand. Not doing so can lead to loss of vehicle control. Modify the speed limiter only for use in closed circuit, legally sanctioned racing environments, not for use on public roadways.

NOTE: The stickers included in some products apply to products that have received CARB exemption for emissions compliance.

This product may meet the emissions compliance requirements of the California Air Resources Board (CARB) and Federal Environmental Protection Agency (EPA). If so, it is legal for sale and use on pollution-controlled vehicles operated on public streets and highways. The device must be installed and operated according to the instructions provided in this user’s manual. Included with these compliant products is a sticker (similar to the one pictured) for you to install in your vehicle. Please clean a flat visible surface under the hood and affix the enclosed CARB EO sticker for SMOG purposes. An example of the need for this sticker would be something to show an emissions technician when taking your vehicle in for an emissions check to let him/her know the product is CARB emissions compliant.

For more information regarding CARB and EPA compliant products, please check out our website: www.holley.com - or mail us via: 1801 Russellville Rd, Bowling Green, KY 42101

FCC & Industry Canada Compliance

MODEL: Parallax FCC ID: 2AA9B05 IC: 12208A-05

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Industry Canada

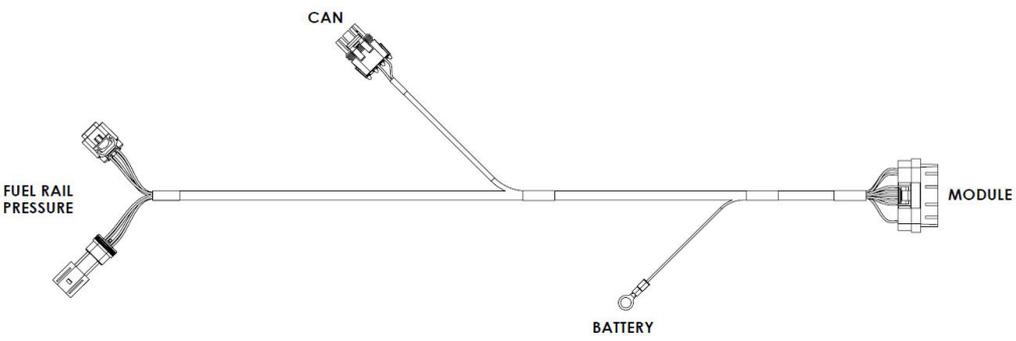

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le present appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisee aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioelectrique subi, meme si le brouillage est susceptible d'en compromettre le fonctionnememnt.

Installation of Edge EZ 2025+ Ram 2500/3500

Materials

Edge EZ Harness

Edge EZ Module

Zip Ties

Velcro Strips

Required Tools

- 10mm Socket and Wrench
- Pick Tool

Installation

STEP 1 - Open the hood and let the vehicle sit for 10 minutes to power down. Please do not enter the vehicle during this time. Then disconnect the negative battery terminals from both batteries to prevent setting DTCs.

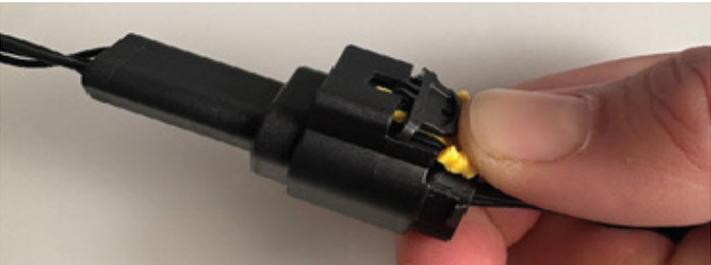

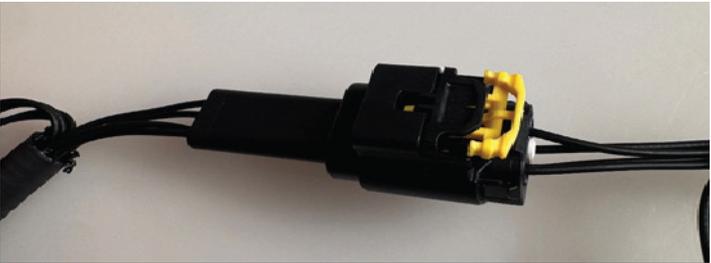

STEP 2 - Locate the FRP (Fuel Rail Pressure) Sensor at the front of the fuel rail on the driver's side of the engine.

Installation Cont'd

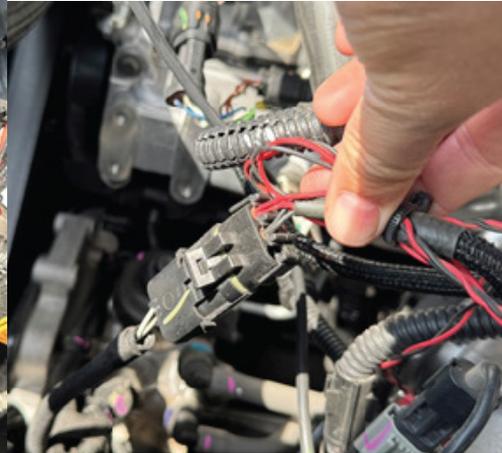

NOTE - To disconnect the FRP connector, use a pick tool to pull the yellow lock tab out then push down on the release tab. Connect both ends of the EZ harness to the sensor and pigtail.

Installation Cont'd

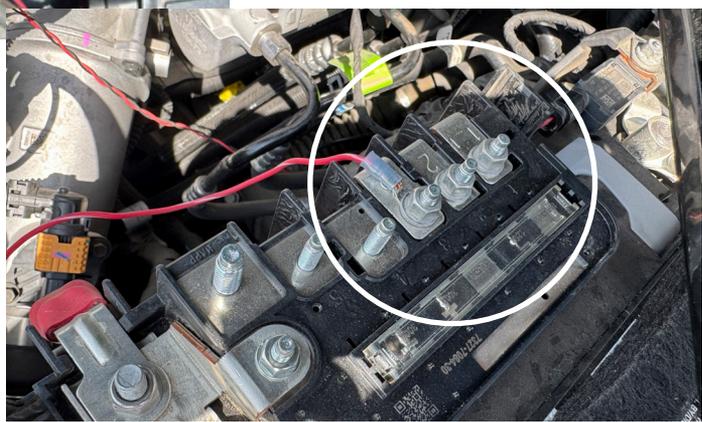

STEP 3 - Locate the Data Link connector on the driver's side engine harness. Plug in the CAN connector from the EZ into the Data Link connector.

Note: A dummy plug will need to be removed from the Data Link connector, prior to connecting the EZ harness.

Installation Cont'd

STEP 4 - Remove the plastic cover on top of the battery closest to the driver's side by depressing the 2 plastic tabs. Set cover aside and use a 10mm to remove one of the nuts shown below and install the ring terminal from the EZ harness. Secure the nut and replace the plastic cover.

Installation Cont'd

STEP 5 - Connect the EZ harness to the module then clean the lid of the fuse box and secure the module with the included Velcro strips. Reconnect both batteries to complete the install.
